Homework 01  
Course: Introduction to Control Systems  
Class: CT09TIEN  
Due date: 24/08/2012

Work in group (4 students in each group) to solve this homework.

Prepare a short presentation (3-5 minutes) about an application of control systems. The presentation should include, but not limited to, the following information:

- Description of the application
- Block diagram of the system
- Components of the system
- How does it work?
- What should you learn to get more understanding about the application?

Each group will present their work in the next class on Friday, 24 August 2012.
